Courtesy: Dr. Costa Nicolopolous

October 29, 2013 • Toronto, ON • Prosthodontic Associates Centre for Excellence

Keystone Dental, Inc. designates this activity for 2 AGD continuing education credits.

Keystone Dental, Inc. and Southern Implants, Inc. have merged and are going forward together under the name Keystone Dental, Inc.

## Seminar Objective

This lecture is intended for implant specialists and restorative dentists to gain insights on treatment alternatives for ultra wide diameter and angled implants. The speaker will discuss treatment alternatives including immediate implant placement into a molar extraction socket as well as documented alternatives for the esthetic zone. The speaker will discuss using these treatment alternatives avoiding the time and expense of grafting prior to implant placement. At the completion of this lecture, attendees will have gained knowledge about how ultra wide diameter and angled implants can predictably simplify procedures without compromising function and esthetics.

## About the Speaker:

### Michael J. Will, D.D.S., M.D., FACS

Cosmetic surgeon Dr. Michael Will received his bachelor's degree from Washington and Jefferson College, his dental degree from Georgetown University and his medical degree from the University of Texas. He completed his General Surgery and Oral and Maxillofacial Surgery training at Brooke Army Medical Center in San Antonio, Texas. Dr. Will also completed a General Cosmetic Surgery fellowship at the Cosmetic Surgery Center in Little Rock, Arkansas. He has authored numerous textbook chapters and scientific articles, and is a recognized national lecturer in Oral and Maxillofacial and Cosmetic Surgery. Dr. Will is on the medical staff at Shady Grove Adventist Hospital, the Montgomery Surgery Center and Frederick Memorial Hospital, DC area.

**Tuesday, October 29, 2013**
