The Digital Denture Revolution has begun!!!

Hands-on Component

This seminar will introduce the audience to a revolution in removable prosthodontics. Digital dentures have been perfected to the point where they are predictable and considered state of the art. AvaDent is an entirely new concept in the fabrication of complete dentures, implant overdentures, immediate dentures and fixed implant reconstructions over implants. Dentures can be made in as little as two appointments with a resulting prosthesis that surpasses the quality of anything made in the conventional manner. The methods are predictable and easy to apply. Learning this method will bring a new appreciation to the fabrication and provision of complete denture prosthodontics.

This presentation will present the different methods that can be used to collect data from a patient and then scanned to create a new prosthesis via milling in a CAD/CAM method. Attendees will be able to use this technology immediately after this program once they return to their practices.

A hands-on component will also be available for those who are interested in trying out some of the methods presented.

Objectives:
1. Understand and be able to apply concepts of digital dentures
2. Apply new material concepts to complete denture fabrication
3. Understand CAD/CAM denture fabrication.

Dr. Izchak Barzilay
D.D.S., Cert. Prosth., M.S., F.R.C.D.(C)

Dr. Izchak Barzilay received his DDS from the University of Toronto in 1983, a Certificate in Prosthodontics from the Eastman Dental Center in Rochester, NY in 1986, and a MS from the University of Rochester in 1991. He is currently Head of the Division of Prosthodontics and Restorative Dentistry, Mt. Sinai Hospital, Toronto, Ont.; Adjunct Assistant Professor, Division of Prosthodontics of the Eastman Department of Dentistry, University of Rochester, Rochester, NY; Professor, George Brown College of Applied Arts and Technology, Toronto, ON; Associate in Dentistry, University of Toronto, Toronto, Ont.; Incoming Chief Examiner in Prosthodontics – Royal College of Dentists of Canada; Past - President of the Association of Prosthodontists of Canada; Past President – Ontario Study Club for Osseointegration.; Advisory Board - International Society for Digital Dentistry; Medical Advisory Board Member – Sjogren’s Society of Canada; Publication reviewer for Journal of Esthetic and Restorative Dentistry, and is in private practice limited to prosthodontics and implant dentistry in Toronto, Ont. He has published on various topics including immediate implants, bonding plastics to various metals and other material and implant related topics. Dr. Barzilay holds many fellowships in prestigious organizations and has been awarded multiple awards for his research and teaching accomplishments.

Course Date: Wednesday, December 3rd, 2014
Course Time: 6:00pm – 9:00pm
Course Location: PACE – 2300 Yonge Street, Suite 901, Toronto ON
Course Tuition: $99.00 plus HST
